- Support, guidance and templates for the selection of a competent provider in this specialist area
- A flexible and varied choice of suppliers to suit individual project objectives

Commercial Procurement Services

Retail Outlets Multi Supplier National Dynamic Purchasing System
Reference DPS04/RO/19/CM
OJEU Notice ref: 2019/S 128-313204

What...

The Countess of Chester Hospital Commercial Procurement Services has awarded a multi-supplier national dynamic purchasing system for Retail Outlets. Public sector organisations need to maximise the utility of their non-core estates. Retail outlets in areas open to the public can contribute to income but operation of these facilities is not a core competence of Public Sector organisations. Leasing the space to a commercial organisation could deliver better value than the current utilisation and reduce administration costs while providing an enhanced service user experience.

Who...

The DPS can be used by any Public Sector organisation. New suppliers can apply to join the DPS at any time.

How...

The DPS will operate for a period of four years. Users must run a completely electronic further competition inviting all capable suppliers to take part. The high-level process is:

- 1 Develop a Statement of Needs / initial Project Specification
- 2 Decide approach to selecting Suppliers
- 3 Participant workshops / Pre-competition engagement (optional)
- 4 Develop the Call for Competition Bid Pack
- 5 Supplier Capability Assessment
- 6 Issue a Call for Competition
- 7 Evaluate tenders
- 8 Provide feedback and evaluation scores to Suppliers
- 9 Request a Unique Reference Number
- 10 Award the contract to the successful supplier and confirm the award to Commercial Procurement Services
