

DPS Benefits

- Free access to a DPS that will save procurement time and cost
- Decontaminate and purify air in a range of environments
- Free-standing units, fitted units and units integrated into HVAC systems available
- Purification systems for continuous use
- Scope includes installation and fitting where required
- Temporary isolation units for patients to isolate without requirement for separate wards
- Create safer environments for staff and service users

Commercial Procurement Services

Air Purification, Decontamination and Isolation Systems

Multi Supplier National Dynamic Purchasing System

Reference DPS09/APDI/21/AB FTS Notice ref: 2021/S 000-006156

What...

The Countess of Chester Hospital Commercial Procurement Services has awarded a multi-supplier national dynamic purchasing system for Air Purification, Decontamination and Isolation System with two Lots.

Lot 1—Air Purification and Decontamination

Lot 2—Temporary Patient Isolation Units

Systems use a variety of methods to remove, minimise or eliminate contaminants in the air, making a safer environment for staff and service users.

Who...

The DPS can be used by any Public Sector organisation. New suppliers can apply to join the DPS at any time.

How...

The DPS will operate for a period of four years. Users must run a completely electronic further competition inviting all capable suppliers to take part. The high-level process is:

- 1 Develop a Statement of Needs / initial Project Specification
- 2 Decide approach to selecting Suppliers
- 3 Participant workshops / Pre-competition engagement (optional)
- 4 Develop the Call for Competition Bid Pack
- 5 Supplier Capability Assessment
- 6 Issue a Call for Competition
- 7 Evaluate tenders
- 8 Provide feedback and evaluation scores to Suppliers
- 9 Request a Unique Reference Number
- 10 Award the contract to the successful supplier and confirm the award to Commercial Procurement Services
