- System designed to augment the existing EPR and PAS systems

Commercial Procurement Services Healthcare Output and Content Management System

Single Supplier National Framework Agreement

F/029/HCMS/19/IB

OJEU: 2019/S 240-589666

NHS Organisations do not pay the framework manager for use of this framework

What...

The Countess of Chester Hospital Commercial Procurement Services has awarded a single supplier national framework agreement for the supply of a healthcare output and content management system. This framework is designed to address the access, routing and managing of complex clinical data from a single virtual access point, reducing costs and increasing efficiency through effective data access and management.

The framework offers a fully compliant route for all NHS and other public sector bodies to access this service.

Services are supplied by:

How...

This framework is easy to use, with only 4 simple steps.
Step 1 – Contact us to express interest in using the Framework.
Step 2 – We will put you in touch with the Framework Supplier, Lexmark, who will discuss in detail the potential benefits for your organisation.
Step 3 – Once the scope of the call-off is agreed we will issue you with a unique reference number and model call-off contract (using standard NHS terms and conditions).
Step 4 – Lexmark will work with your organisation directly to deliver the benefits over the agreed implementation period.
