

Framework Benefits

- A solution for NHS organisations wishing to migrate from legacy PAS to a modern EPR system
- Provide assurance to the Board, CCGs and patients of the accuracy of patient data held
- Support RTT and other associated patient access standards
- Improve the quality of patient data held within the EPR
- Support the optimal use of a new EPR from implementation
- Suppliers will ensure effective knowledge transfer and will help to develop in-house central validation and booking teams
- Free to access framework that will save procurement time and cost.

Commercial Procurement Services

Provision of Data Validation Services
Multi Supplier National Framework Agreement
Reference F/075/VAL/21/IB
Contract Notice ref: 2021/S 000-004770

What...

The Countess of Chester Hospital Commercial Procurement Services has awarded a national framework agreement for the provision of Data Validation Services.

The framework will allow NHS Organisations to access highly specialised support to enable the testing and validation of patient data, as part of the process of migrating from a legacy PAS to a modern EPR system.

Who...

The framework offers a fully compliant route for all UK NHS bodies.

The suppliers on this framework are (in alphabetical order):

Acumentice Ltd
Healthcare Business Solutions UK Ltd
Ideal Health Consultants Ltd
Insource Ltd
MBI Healthcare Technologies Ltd
Orwin & Algeo Management Solutions Ltd
Source Group

How...

Contracts can be awarded by direct call off or through further competition.

To award by direct call off, assess the Framework Briefing Pack information against the direct call off criteria in the Briefing Pack to choose the best-value supplier for your needs.

If you want suppliers to develop proposals or a solution for your requirement; and/or you need to amend or refine the terms of the call-off contract (subject to the procurement regulations), a further competition will be required.
